Dear Rick:

We are writing to pass on our thanks to the team at Digital Future following the installation of our new Nortel Norstar telephone system during our office move in December 2003 and the integration of the AMICA offices in May 2004. In both instances, the installation was carried out without any interruption to our work and it was completed on time. You successfully helped us to choose the right product for our specific needs and budget.

Please thank Paul Bowie who was efficient, accommodating and pleasant during the whole process. We also appreciate all your patience during the training and your continued support in answering our ongoing queries in a quick and timely manner.

In addition, your assistance with the cabling, the change in telephone company and providing us with OfficeWurx as contact for our computer support, proved to be of tremendous help during our hectic office relocation.

We wish you and Digital Future every success in the future. Needless to say, we would have no hesitation in recommending Digital Future to anyone requiring a new telephone system.

Yours truly,

Angela Santullo
