Re: Digital Future

To Whom It May Concern:

It is with great pleasure and satisfaction that I write this letter of compliments to Rick Vukadinovich and Digital Future.

Isaacs & Co. switched to Digital Future prior to an office relocation in July 2010 and major reevaluation of our previous telecommunication service provider.

From the first meeting up until the date of this letter, Digital Future has gone above and beyond that which is necessary to keep Isaacs & Co. connected.

Their courtesy, professionalism and expertise have been invaluable to us, both during our move and in maintaining our system to date. Their prompt response to any and all requests is exceptional.

I would highly recommend Digital Future and all its technicians to anyone thinking of upgrading, changing or maintaining their current telecommunication systems.

Regards,

ISAACS & CO.

Rachael D. Bruce
Office Manager
