Rick

I wanted to send a quick note thanking you and your team for doing an outstanding job in making the move to our new location worry free.

From the cabling to the phone system configuration everything was done right and on schedule. On Monday morning my staff came in, plugged in their laptops and started working. I couldn't have asked for more.

Yours was the only one of our contractors that finished on time and on budget.

Again much thanks

Marc-Antoine Lamoureux
I.T. Manager | Trapeze
